

## NEW ALICE CHECK-IN AND CHECK-OUT FEATURES

Add additional screening options and receive valuable feedback from your visitors!

ALICE's new check-in / out features give your team more flexibility and screening options, while also collecting valuable feedback from your visitors' experiences.

### CHECK-IN ENHANCEMENTS

- > Allow guests to pre-check-in before their visit remotely.
- > Use custom surveys during the check-in process to screen visitors for safety concerns such as COVID, as well as flag individuals based on responses.
- > Learn more about your visitors' experiences with custom check-out surveys to help improve their future visits.
- > Apply signatures directly to documents and easily e-mail them to guests after their visit.

Upgrade to 5.4 for these new visitor check-in functions, alongside other new features like pre-check-in.
